

VERSION WITH MARKINGS TO SHOW CHANGES MADE

In the claims:

Claim 55 has been amended as follows:

55. (Amended) A system for advanced network viewing, comprising:
a first site; and
a second site linked over a network to said first site;
wherein the second site provides a representation of said second site to said first site so that a user may access said first site and preview said second site and wherein the second site stores said representation and periodically updates the representation by at least one of the linked second site and the first site.
